President
Friday Harbor Baseball and Softball Association

As president of the Friday Harbor Baseball and Softball Association I fully endorse Island Rec regarding the upcoming levy. Our association relies heavily on the support of Island Rec. All of our association and volunteers put hours every week to maintain our fields. This is only part of what it takes to run our large association. To have the support of island rec on maintaining all the fields used by our association allows us to have reduced fees to allow for a larger percent of our community to afford to play. Beyond field maintenance, Island Rec is always a terrific resource for our association on many of our organizations issues that come up.

As a member of our community with children, I can't say enough about the programs offered by Island Rec. We moved back to San Juan after having kids because of the many activities our children have the opportunity to be enrolled in, most of these offered by island rec. To have structured, safe and active programs is something we do not take for granted.

Sincerely yours,

Sean Aylward
